

DOKUMENTASI KEGIATAN 2025/09/24/A1
Kegiatan Aktualisasi: membuat halaman login untuk aplikasi LMS
Peserta Diklat non-ASN

```
import React, { useState } from 'react'
const LoginPage = () => {
  const [username, setUsername] = useState('');
  const [password, setPassword] = useState('');

  const handleSubmit = (e) => {
    e.preventDefault();
    // Handle login logic here
    console.log('Login attempted with:', { username, password });
  };

  return (
    <div className="min-h-screen flex items-center justify-center bg-gray-50">
      <Card className="w-full max-w-sm">
        <CardHeader>
          <CardTitle className="text-2xl">Login</CardTitle>
          <CardDescription>
            Enter your username and password to access your account.
          </CardDescription>
        </CardHeader>
        <CardContent>
          <form onSubmit={handleSubmit} className="grid gap-4">
            <div className="grid gap-2">
              <Label htmlFor="username">Username</Label>
              <input
                id="username"
                type="text"
                value={username}
                onChange={(e) => setUsername(e.target.value)}
                required
              />
            </div>
            <div className="grid gap-2">
              <Label htmlFor="password">Password</Label>
              <input
                id="password"
                type="password"
              />
            </div>
          </form>
        </CardContent>
      </Card>
    </div>
  );
}
```
