Kegiatan Aktualisasi: Membuat tabel database dan entitas Course
(mata diklat)

DOKUMENTASI KEGIATAN 2025/10/27/A2

Kegiatan Aktualisasi: Membuat tabel database dan entitas Course (mata diklat)

The image displays two screenshots of a Visual Studio Code editor interface, showing the development of a Laravel application. The top screenshot shows the file explorer on the left with the 'Database' folder expanded, highlighting the 'Migrations' folder. The main editor displays the file '2025-10-29-021525_CreateModulesTable.php' with the following PHP code:

```
class CreateModulesTable extends Migration
{
    public function up()
    {
        $this->table('modules', function (Blueprint $table) {
            $table->id();
            $table->string('course_id')
                ->unsigned()
                ->constraint(11, 'courses')
                ->autoIncrement();
            $table->string('name')
                ->length(255)
                ->unique();
            $table->timestamp('disabled_at')
                ->nullable();
            $table->text('description');
        });
    }
}
```

The bottom screenshot shows the file explorer with the 'Views' folder expanded, highlighting the 'Batch' folder. The main editor displays the file 'Batchindex.php' with the following Blade template code:

```
<?php $this->extend('default_layout'); >

<?php $this->section('imports') >
<script src="/_core/component/breadcrumb.mjs" type="module" defer></script>
<script src="/_core/component/image-card.mjs" type="module" defer></script>
<?php $this->endSection() >

<?php $this->section('content') >
<app-breadcrumb> Diklat Saya </app-breadcrumb>
<main class="container-md">
<section>
<div class="d-grid gap-4" style="grid-template-columns: repeat(auto-fit, minmax(20rem, 1fr));">
<app-image-card title="UIN Bandung 2025" subtitle="19-20 Maret 2025"></app-image-card>
</div>
</section>
</main>
</?php>
```

Both screenshots show a 'PROBLEMS' panel at the bottom with a 'Timeout' error: 'Error: Timeout (Connecting with SSH timed out)'. The status bar at the bottom of each screenshot indicates the current file, line, column, and other editor settings.
